

K-Love radio is very important to me because it gives me an opportunity to listen to Christian music while I am at work and so that I can give my non-Christian friends an option to their secular music. If K-Love was not available in our community, people would not have an opportunity to listen to anything other than country or rock music. I live in a small community and would be deeply saddened if I could not listen to K-Love. K-Love is a very positive influence to many people of our community (including my children), and it is the public's best interest to continue this important ministry. Thank you for your time and consideration.
